

Toluene

SN	Item	UNIT	SPECIFICATION	Test Method
1	Purity	-	Min 98	G.C
2	Specific Gravity, 15.56/ 15.56°C	-	0.869~0.873	ASTM D4052
3	Sulfur Compounds	-	None Detected	ASTM D853
4	Copper Corrosion	-	Pass	ASTM D849
5	Acidity	Wt-%	None Detected	ASTM D847
6	Total Distillation Range at 760 mmHg Pressure -Initial Boiling Point -Dry Point	°C	Not more than 1°C including the temperature of 110.6°C	ASTM D850
7	Color (Pt-Co Scale)		Max. 20	ASTM D1209

Description : Toluene has high solubility and evaporation rate, being used as solvents for paint, ink, adhesives and most of the coatings.

Applications : Paint, Ink

Packing : 174Kg / drum * 80 drums = 13.92 MT
